### SAM Labs Iron Three Mission Primary Category Game Description, Rules and Scoring

#### A. Brief

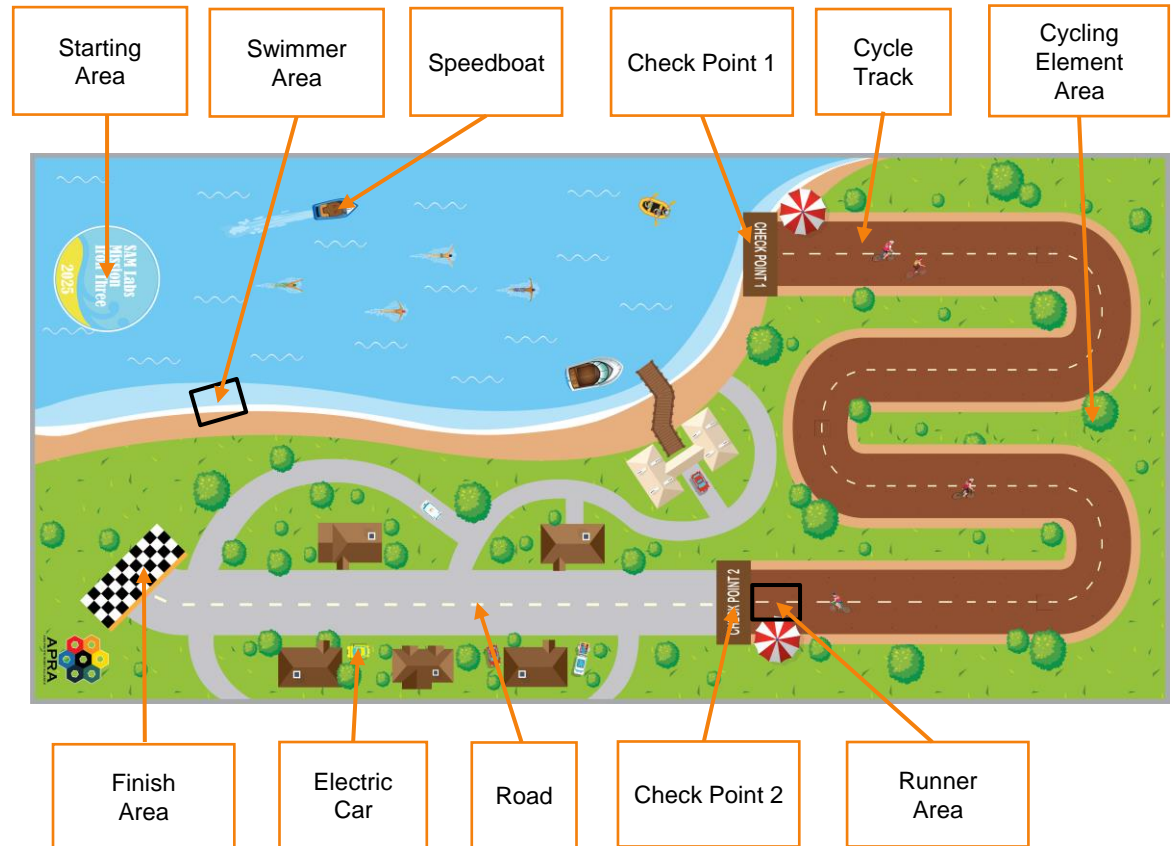

A1. Iron Three Mission is a sport that not only tests players' physical fitness and willpower, but also requires the use of strategies to gain an advantage. This competition requires a robot to play the role of contestant and complete three events: swimming, cycling and running. In the process, they need to complete multiple tasks to gain points and complete the event as quickly as possible.

A2. The participating teams consist of one to three members, and each team will use one SAM Labs robot to compete against another team's robot. The team with the higher score within the time limit is the winner.

A3. The quota for each school or organization will be determined according to the actual number of participating teams.

A4. Participating age: Participants must be 6 - 10 years old (birth date in 2025 season is 2015 – 2019 ).

## B. Field Setup And Specifications

## C. Game Description

C1. During the tournament, each team will have three rounds, and the score and time of each round will be recorded.

C2. The vertical projection of the robot must be completely within the starting area before starting the game.

C3. After the competition begins, participants are not allowed to touch the robot until the end of the round.

C4. During the competition time, the robot can move freely on the field.

C5. When the time exceeds 120 seconds or the participants says "finish", the timing ends.

C6. The scores of the three rounds of each team will be sorted from high to low. If the scores are the same, the team with the shorter completion time will be ranked higher.

C7. If the scores and time of teams are the same, the best scores and times of the next round will be compared.

## D. Scoring

D1. Definition of completely entered: The vertical projection of an object **completely overlaps** the pattern.

D2. Definition of partially entered: The vertical projection of an object **overlaps** the pattern.

D3. Definition of completely left: The vertical projection of an object is **completely separated** from the pattern.

D4. Mission 1 : The swimmer **partially entered** the check point 1 and **remained upright**, 10 points will be scored.

## E. Game Rules

E1. The electronic components (including motors and sensors) used to build the robot must be from SAM Labs products. The number of sensors is not limited but **two** motors ( DC MOTOR ) must be used for the robot.

E2. The maximum extension size of the robot (including the attached accessories) cannot exceed a circle with a diameter of 220 mm, and the height cannot exceed 220 mm.

E3. The robot can be designed freely but the parts for building the robot must be strictly LEGO® parts.

E4. Only APRA officially specified 3D motor connection components can be used.

Motor Component A

Motor Component B

SAM Labs Iron Three Mission

Game Description, Rules and Scoring

E5. Building materials such as glue, tape, screws, etc. must not be used.

E6. The control program must be official SAM Labs software (SAM Studio or SAM Space).

E7. Participants must bring their own computer or tablet for the tournament.

E8. Participating teams can bring pre-built robots for the tournament.

## E. Game Rules

E9. If the referee finds a robot that does not meet the specifications at any time, the team must modify the offending parts within 1 minute. If teams do not meet the requirement within the time limit, they will not be allowed to participate in the existing round.

E10. Only one robot can be used in each round of the tournament. Teams can use different robots in the next round of the tournament, but it is strictly forbidden for different teams to exchange robots or parts. Once violations are found, the relevant teams will be disqualified.

E11. The preparation time before the existing round is 1 minute, team can adjust their robot.

E12. All teams are not allowed to bring the game field to the venue for practice. The organizer will provide simulation time to all teams.

E13. Participants must bring their robots to line up, otherwise the simulation will be cancelled, and they need to line up again.

E14. After the game starts, if the participating member interferes with the game in any way, the round will be regarded as 0 point and recorded according to the competition time limit; if the contestant is influenced by others, the referee will judge whether to rematch.

SAM Labs Iron Three Mission  
Primary Category  
Game Description, Rules and Scoring

## E. Game Rules

E15. Teams are strictly prohibited from interfering with their opponents in any way, otherwise they will be disqualified immediately.

E16. If there are any special circumstances, all decisions shall be based on the decision of the chief referee, and no objection shall be allowed.

E17. The minimum score recorded is 0 point, and there will be no negative points. The highest time recorded will be the competition time limit.

## F. Other Rules

Responsibility of the parties

F1. In the tournament, the referee has the final decision.

F2. Any objections to the decision of the referee will be warned. If participants continue to argue, the team will be immediately disqualified from the tournament.

F3. After the game, participants in each team need to sign the score sheet for confirmation.

F4. When confirming the score sheet, a protest can only be lodged if the score is incorrect or if there is a problem with the result of the game. Once the score sheet has been signed, no protest may be made by either party.

F5. The referee may interpret the rules.

F6. In special circumstances, such as unforeseen problems or the ability of robots that everyone agrees in the tournament, the rules can only be changed with the consent of the chief referee.

## F. Other Rules

### Inspection of Robot

F7. If the robot is modified during the game, the referee may ask the robot to check again.

F8. Any robot that does not comply with inspection regulations, it will not be able to be used in the game until it is corrected.

F9. Modifications must be made within the time schedule of the game and teams must not delay game play while making modifications.

F10. If the robot cannot comply with all the regulations (and cannot comply after the amendment), the existing round will be disqualified. (the qualification will not be cancelled.)

---

Game Description, Rules and Scoring

## F. Other Rules

### Fair Play

F11. Except for the participants and staff, no one is allowed in the game area.

F12. No one other than the participants is allowed to modify the robot or the program.

F13. Participants are not to be prompted or assisted in any way during the tournament.

F14. If the above situations are found during the game, the team may be disqualified from the tournament.

F15. When the team registers for the tournament, it is also necessary to clearly read the relevant registration terms and competition rules.

F16. When the content of different files conflicts, the order of precedence of the rules is:

Final Decision of Organizer > Rules Update > SAM Labs Iron Three Mission rules.
